**PARTsolutions CEO to Serve as Panelist at Advanced Aerospace Manufacturing & Technology Conference**

*Tim Thomas to Provide Insights on Enabling Aerospace Manufacturing and Component Suppliers to Achieve Maximum Performance throughout their Enterprises*

**Milford, OH – May 27, 2010** – Tim Thomas, CEO of [PARTsolutions LLC](http://www.partsolutions.com), a global provider of 3D part catalogs for manufacturers and enterprises, will be a panelist at the [Advanced Aerospace Manufacturing & Technology Conference](http://www.gmpgroupconferences.com/aerospace_manufacturing.php) on June 3-4, 2010 at the Delta Hotel in Montreal. The two-day, three-track executive gathering focuses on supply chain, manufacturing and operation initiatives.

Mr. Thomas will serve as a presenter on the “Emerging Technology Enhancing Global Visibility,” taking place on June 4th from 2 - 3:30 p.m. Together with senior executives from The Boeing Company, Lockheed Martin, RFID Global Solutions and GS1 EPCglobal, the panel will discuss issues relevant to supplier collaboration, including:

- Technology Road Map
- Demand Drivers
- Moving Beyond J.I.T.
- Supply Chain Agility
- Predictive and Tracking Technology

“World class manufacturers must adopt new best practices and continuous improvement principles to drive business forward in the design, manufacturing and delivery of aerospace products,” said Tim Thomas, CEO of PARTsolutions. “The Advanced Aerospace Manufacturing & Technology Conference provides attendees with real-time insights on emerging technology initiatives that support enhancement in the aerospace sector.”

**About PARTsolutions LLC**

PARTsolutions® LLC is a leading provider of PLM solutions for next generation 3D part catalog management and hosting, delivering solutions since 1992. For large manufacturers, the PARTsolutions product suite provides centralized 3D standard part catalogs making it easy for global design teams to

find, reuse, and control standard and proprietary 3D parts. For component manufacturers, the PARTsolutions product suite provides web hosting of 3D part catalogs to increase lead generation, and to ensure that components get “designed in” to OEM products. The PARTsolutions CAD-Native advantage provides support of over 85 native and neutral CAD and graphics formats to meet the needs of the multi-CAD supply chain. The PARTsolutions product suite maximizes support of reuse and standardization initiatives to deliver measurable business growth through maximizing standard part reuse to get products to market faster with reduced cost. Information about PARTsolutions can be found at <http://www.partsolutions.com>.
